| SUBJECT | American Career College, Anaheim, Vocational Nursing Program -Request to Increase Class Size (Director: Holly Long, Anaheim; Orange County, Private) |

STAFF SUMMARY:

The American Career College, Anaheim, Vocational Nursing Program requested to increase class size from 50 students to 60 students for each part-time class, starting with the projected class on July 6, 2020.

January 31, 2020, the NEC received a request to increase the class size from 50 students to 60 students with the projected July 2020 class start. (Attachment B)

February 18, 2020, the NEC made an announced site visit. At the time it was deemed the program had adequate space on campus to increase class size, along with adequate faculty and Board approved facilities.

April 22, 2020, the NEC emailed to the program director stating that due to ongoing disruptions in normalcy related to the COVID-19 pandemic crisis and the unknown future as related to social distancing the NEC would wait until mid-June 2020 to make the recommendation related to the request to increase class size from 50 students to 60 students. (Attachment C)

June 8, 2020, the NEC emailed to the program director stating that since students had not returned to campus for theory and access to clinical sites was limited, the NEC would recommend denying the request to increase the class size from 50 students to 60 students. The NEC asked the program director “would you like to withdraw your request at this time and resubmit the request when the campus has opened to full capacity?” (Attachment D)

June 9, 2020, the program director sent an email stating “Yes, we will withdrawal the expansion application for ACC-OC and reapply at a later date when we are at full capacity again and COVID restrictions have been lifted.” (Attachment E)

June 12, 2020, an email was received from the director of accreditation and licensing stating, “At this time, we would prefer to not withdraw our application, and update you in a couple weeks as clinical sites are starting to come back.” (Attachment F)

June 22, 2020, the program director submitted the requested documents to the NEC for analysis of the request to increase class size from 50 students to 60 students starting with the projected July 6, 2020, class. (Attachment G)

June 25, 2020, the NEC received verbal verification from 3 clinical sites that they would be scheduling students in the July 6, 2020, class.

STAFF RECOMMENDATIONS:

1. Deny American Career College, Anaheim, Vocational Nursing program’s request to increase class size from 50 students to 60 students for each part-time class, starting with the projected July 6, 2020 class.
2. Require the program to demonstrate students are scheduled for clinical experiences in Board approved clinical facilities to meet 50 percent of clinical hours in a hands-on clinical setting during the COVID-19 pandemic.
3. Place the program on the November 20, 2020 Board meeting agenda for reevaluation of resources and reconsideration of request to increase class size from 50 students to 60 students for each part-time class.
4. Require the program director to submit the following documents by September 15, 2020:
 - Current facility roster
 - Current faculty roster
 - Faculty/facility assignments
 - Enrollment table, including projected class
 - Course calendar for term 1 for projected class
 - Submit documentation that will be given to potential students informing the student that the class may pause due to 50% of simulation being met.
5. Require the program director to submit documentation of adequate resources demonstrating scheduled clinical sites by October 30, 2020 for the projected January 2021 part-time class.
6. Continue to require the program to comply with all approval standards in Article 4 of the Vocational Nursing Practice Act, commencing at Business and Professions Code Section 2880, and Article 5 of the California Code of Regulations, Title 16.

Staff Rational for Recommendations:

When the program director requested the increase in class size in January 2020, the program had the resources to accommodate the increase in students. Due to the COVID-19 pandemic, the program's Board approved clinical facilities have displaced students. The program is currently utilizing online theory and virtual simulation to meet program objectives.

The program starts two part-time classes a year. The second part-time class for 2020 began July 6, 2020. The next part-time class will begin January 2021. It is recommended to wait until the November Board meeting to allow the program to secure resources and at that time determine if the program continues to have adequate resources prior to increasing class size.

Between February 25, 2019 and May 26, 2020, the program has admitted nine classes, three part-time classes, and six full-time classes. The average class size on admission has been 39 students. Six classes admitted fewer than 40 students while three classes admitted between 47 and 50 students.

Enrollment

The program is approved to offer both full-time and part-time classes. A full-time class of 50 students is admitted four times a year and a part-time class of 50 students is admitted twice each year to replace graduates only. The pattern of admissions for current and projected classes is seen in the enrollment table below.

The following table represents projected student enrollment based on current and projected class starts and completions. The table indicates a maximum enrollment of 314 students for the period from January 2019 through July 2020.

| Apr – Jun 2020 | 42 | 41 | 98% | 81% | 92% | 79% | + 13 |

*The Annual Pass Rate changes every quarter. It is calculated by dividing the number of candidates who passed during the current and previous three quarters by the number of candidates who tested during the same period. If no data is available for the relevant period, the statistic is carried over from the last quarter for which data is available.

California Code of Regulations Section 2530(I) states:

“The program shall maintain a yearly average minimum pass rate on the licensure examination that does not fall below 10 percentage points of the state average pass rate for first time candidates of approved vocational nursing schools for the same period.”

Based on the most recent data available (January - March 2020), the program’s average annual pass rate is 92 percent The California average annual pass rate for graduates from approved vocational nursing programs who took the NCLEX-PN® for the first time during the same period is 79 percent. The average annual pass rate for the American Career College, Anaheim, Vocational Nursing Program is 13 percentage points above the state average annual pass rate.

Faculty and Facilities

Section 2534(d) of the Vocational Nursing Rules and Regulations states:

“For supervision of clinical experience, there shall be a maximum of 15 students for each instructor.”

The total number of Board-approved faculty is 31, including the director. The director has 100% administrative duties. Thirty instructors are designated to teach clinical. For a maximum enrollment of 314 students, 21 instructors are needed for clinical supervision. The utilization of faculty at clinical facilities is such that the clinical instruction is covered adequately.

Section 2534(b) of the Vocational Nursing Rules and Regulations states:

“Schools shall have clinical facilities adequate as to number, type, and variety of patients treated, to provide clinical experience for all students in the areas specified by Section 2533. There must be available for student assignment, an adequate daily census of patients to afford a variety of clinical experiences consistent with competency-based objectives and theory being taught.”

Due to the COVID-19 pandemic, the program’s Board approved clinical facilities have displaced students, thereby not allowing student access to the clinical site. Currently the program has begun to return to clinical sites, as well as beginning to return to the campus for skills lab. The program is currently conducting theory through an online modality.

Other Considerations

The campus has two skills labs, which have been arranged to allow for social distancing. Students are scheduled in small groups with 10 students and one instructor in the lab at a time.

Re: Request to Increase Enrollment

Dear Dr. Fairchild,

American Career College, Orange County with the BVNPT 4th quarter report has achieved 97% NCLEX pass rate and a 2019 yearly pass rate of 90%. At this time the current demand for the program has increased and we would like to request for an increase in enrollment.

Please find enclosed the required documentation for a request for approval to increase the enrollment of the vocational nursing evening weekend part-time program from two starts of 50 students to two starts of 60 students every 20 weeks to replace graduating students and for all ongoing admissions for American Career College, Orange County. Included are the following attachments:

- 1) Attachment A Enrollment Data
- 2) Attachment B Clinical Facilities
- 3) Attachment C Faculty/ Student Clinical Assignments

We would like to request this for the next VNEW start which is scheduled for July 6, 2020. This cohort is replacing the VNEW class that started on January 22, 2019 and will graduate August 30, 2020, their last clinical ends July 25, 2020. From 8/3/20 – 8/30/20 exiting cohort will be enrolled into the Concept Mastery course.

Re: Request to Increase Enrollment

Dear Dr. Fairchild,

American Career College, Orange County with the BVNPT 4th quarter report has achieved 97% NCLEX pass rate and a 2019 yearly pass rate of 90%. At this time the current demand for the program has increased and we would like to request for an increase in enrollment.

Please find enclosed the required documentation for a request for approval to increase the enrollment of the vocational nursing evening weekend part-time program from two starts of 50 students to two starts of 60 students every 20 weeks to replace graduating students and for all ongoing admissions for American Career College, Orange County. Included are the following attachments:

- 1) Attachment A Enrollment Data
- 2) Attachment B Clinical Facilities
- 3) Attachment C Faculty/ Student Clinical Assignments

We would like to request this for the next VNEW start which is scheduled for July 6, 2020. This cohort is replacing the VNEW class that started on January 22, 2019 and will graduate August 30, 2020, their last clinical ends July 25, 2020. From 8/3/20 – 8/30/20 exiting cohort will be enrolled into the Concept Mastery course.

Subject: class increase
Date: Wednesday, April 22, 2020 5:39:00 AM

Hi Holly,

I wanted to take a moment and give you an update on your request to increase the class size the end of June. When I did the site visit the end of June I had planned on recommending to increase the class size, however with the ongoing disruptions in normalcy related to the COVID19 pandemic crisis and the unknown future as related to social distancing I am waiting until mid-June to make the recommendation. If programs continue in the online format, or have returned to the classroom while utilizing the 6 foot social distancing we will need to reassess the request.

Please let me know if you have any questions

Good morning Holly,

I have reviewed the request to increase class size. As students have not returned to campus and there is very limited clinical sites I will be recommending to not increase the class size at this time.

Would you like to withdraw you request at this time and resubmit the request when the campus has opened to full capacity?

Please let me know if you have any questions

Good morning Dr. Fairchild,

Thank you for your response. We wanted to reach out and touch base on this. We completely understand your stance related to clinical sites. At this time, we would prefer to not withdraw our application, and update you in a couple weeks as clinical sites are starting to come back. This enrollment increase request is only for the Evening/Weekend program at this time. For the VNEW program, even in a normal circumstance, these students would not need to be in clinical sites until week 17 of the first term, which for these students would be in late November 2020. Also, with the demand, students turned away from our VNEW program would not be able to start our program until late January, as there are only 2 entry points per year.

Thank you.

Guys, we need holly to reach out to Fairchild today and ask about the approval for growth in VNEW. We have 65 enrolled and only 50 seats. She was going to approve prior to covid. VNEW – term 1 is 5 months. Technically, they wont need to go to clinical until Dec/January if they do 100% of fundamentals in simulation (we wont, but it can be done). We need those 10
