REVIEWED BY	Beth DeYoung, MPH, RN Acting Supervising Nursing Education Consultant (SNEC)
PREPARED BY	Sharlene dela Rosa MSN RN Nursing Education Consultant (NEC)
SUBJECT	Request to Admit Students
PROGRAM	University of Antelope Valley Vocational Nursing Program (Program) (Program Director: Ahila Muthaiya, Lancaster, Los Angeles County, Private)

Please note: The NECs make recommendations. The recommendations are forwarded to the Executive Officer Review, the Education and Practice Committee or the full Board for action.

PROGRAM REQUEST:

Admit a part-time class of 30 students to commence on October 3, 2022, with a graduation date of April 14, 2024, to replace a class that graduates on August 29, 2022.

BACKGROUND:

On July 5, 2022, the NEC received a request with supporting documentation from the Program Director for a request to admit students.

STAFF ANALYSIS:

The NEC reviewed and analyzed the documents provided by the Program Director to verify adequate resources including clinical facilities and classrooms to accommodate the students' learning needs and ability to meet the Program's approved objectives.

The Program has not maintained a yearly average minimum pass rate on the licensure examination that is compliant with Section 2530(l) of the California Code of Regulations, Title 16. Currently, the Program's average annual pass rate is 80 percent, but the two quarters prior were 50 percent.

According to the Program Director, the Program did not have any graduates between July 2020 to March 2022. The last class that graduated from the Program who were eligible to take the NCLEX-PN® examination graduated on or prior to July 2020. There were no graduates in 2021. The next class eligible to take the NCLEX-PN® exam completed the Program in March 2022. The Program will not be able to demonstrate the effectiveness of the interventions they have implemented until further licensure examination results are available for the second and third quarters of 2022.

Board staff will continue to monitor the Program's effectiveness by tracking class admissions, the effectiveness of employed interventions, and the Program's licensure examination pass rates each quarter.

According to the Program Director, the following issues contributed to the decline of NCLEX-PN® pass rates in the most recent two quarters:

- Students who took NCLEX-PN® examination during 2021 were previous graduates. The most recent graduate was in 2020. More than a year-gap between graduation and the NCLEX-PN® examination attempt.
- Previous graduates attempting to take the NCLEX-PN® examination without appropriate preparation.
- Not having any current graduates who had taken the NCLEX-PN® examination.

The following interventions will be implemented to improve the NCLEX-PN® pass rates scores based on the issues identified above:

- Improving the current cohort students' NCLEX-PN® preparedness through full HESI integration, use of adaptive quizzing, case studies, practice tests, mandated remediation for every student, and mandatory NCLEX-PN® preparation.

STAFF RECOMMENDATIONS:

1. Deny the Program's request to admit a part-time class of 30 students to commence on October 3, 2022, with a graduation date of April 14, 2024, to replace a class that graduates on August 29, 2022.
2. Approve the Program to admit a full-time class of 20 students to commence on October 3, 2022, with a graduation date of April 14, 2024, to replace a class that graduates on August 29, 2022.
3. Require the Program to comply with all requirements listed below.

PROGRAM REQUIREMENTS

1. Continue to require the Program to submit a comprehensive analysis report in six months, with a submission date no later than February 1, 2023. The report must include a comprehensive analysis of the Program, timeline for implementation, and the effect of employed interventions. The following elements must be addressed in the analysis.

 - c. Ensure that the Program maintains an average annual pass rate that is compliant with Section 2530(l) of the California Code of Regulations, Title 16.

Regulation 2534(d) of the California Code of Regulations, Title 16, states, "For supervision of clinical experience, there shall be a maximum of 15 students for each instructor." Recommendation of one instructor for every ten students in clinical experiences will enable more focused instruction and enhanced learning to closely monitor and evaluate the clinical performance of students.
5. Notify the NEC in the event a current class is displaced from clinical sites.

RELEVANT PROGRAM ELEMENTS

Enrollment

Section 2530(k) of the California Code of Regulations, Title 16 states:

“The program shall have prior Board approval to increase the number of students per class and/or increase the frequency of admission of classes. Criteria to evaluate a school's request to increase the number of students per class and/or increase the frequency of class admissions include but are not limited to: (1) Sufficient program resources as specified in Section 2530(a). (2) Adequacy of clinical experience as specified in Section 2534. (3) Licensure examination pass rates as specified in Section 2530(l)”.

The Program is approved to offer a 57-week full-time class and a 68-week part-time class. Board approval is required prior to the admission of each class.

The following table represents current and projected student enrollment based on current and proposed class starts and completion dates. The table indicates a maximum enrollment of 50 students for the period March 2021 through October 2022.

Licensing Examination Statistics

Section 2530(l) of the California Code of Regulations, Title 16 states:

“The program shall maintain a yearly average minimum pass rate on the licensure examination that does not fall below 10 percentage points of the state average pass rate for first time candidates of approved vocational nursing schools for the same period.”

The following statistics, furnished by Pearson Vue and published by the National Council of State Boards of Nursing as “Jurisdictional Summary of All First-Time Candidates Educated in Member Board Jurisdiction,” for the period July 2020 through June 2022, specify the pass percentage rate for graduates of the Program on the National Council Licensure Examination for Practical/Vocational Nurses (NCLEX-PN®) and the variance from the state average annual pass rates.

*The Annual Pass Rate changes every quarter. It is calculated by dividing the number of candidates who passed during the current and previous three quarters by the number of candidates who tested during the same period. If no data is available for the relevant period, the statistic is carried over from the last quarter for which data is available.

Based on the most current data available (April – June 2022), the Program’s average annual pass rate is 80 percent. The California average annual pass rate for graduates from approved vocational nursing programs who took the NCLEX-PN® for the first time during the same period is 72 percent. The average annual pass rate for the Program is eight percentage points above the state average annual pass rate.

Faculty and Facilities

Section 2534(d) of the California Code of Regulations, Title 16 states:

“For supervision of clinical experience, there shall be a maximum of 15 students for each instructor.”

At the August 16, 2019 Board meeting, the Board required the Program to provide one instructor for every ten students in clinical experiences. Fewer students for each clinical instructor enable more focused instruction and enhanced learning and allow the instructor to closely monitor and evaluate students’ clinical performance.

The current number of approved faculty totals 23, including the Program Director. The Program Director has 85 percent administrative duties and 15 percent teaching responsibilities. Of the total faculty, 20 are designated to teach clinical. Based upon a maximum proposed enrollment of 50 students, five instructors are required for clinical supervision. The utilization of faculty at clinical facilities is such that clinical instruction is covered adequately.

Section 2534(b) of the California Code of Regulations, Title 16, states:

“Schools shall have clinical facilities adequate as to number, type, and variety of patients treated, to provide clinical experience for all students in the areas specified by Section 2533. There must be available for student assignment, an adequate daily census of patients to afford a variety of clinical experiences consistent with competency-based objectives and theory being taught.”

Submitted documentation indicates the Program has sufficient clinical facilities to afford the number, type and variety of patients that will provide clinical experience consistent with Board-approved competency-based objectives and theory being taught for current and proposed student enrollment.

3. Require the Program, when requesting approval to admit students, to:
 - a. Submit all documentation in final form, using the forms provided by the NEC, no later than by the fifteenth day of the second month preceding the month of the Board meeting.
 - b. Provide documentation that adequate resources, i.e., faculty and facilities, are available to support each admitted class of students.
 - c. Ensure that the Program maintains an average annual pass rate that is compliant with Section 2530(l) of the California Code of Regulations, Title 16.
4. Continue to provide no less than one instructor for every ten students in clinical experiences. Regulation 2534(d) of the California Code of Regulations, Title 16, states, "For supervision of clinical experience, there shall be a maximum of 15 students for each instructor." The recommendation of one instructor for every ten students in clinical experiences will enable more focused instruction and enhanced learning to closely monitor and evaluate students' clinical performance.
5. Notify the NEC in the event a current class is displaced from clinical sites.

6. Continue the Program's requirement to comply with all approval standards in Article 4 of the Vocational Nursing Practice Act, commencing at the California Business and Professions Code, Section 2880, and Article 5 of the California Code of Regulations, Title 16, Section 2526.
7. Continue the Program's requirement to demonstrate incremental progress in NCLEX-PN® examination pass rates. If the Program fails to satisfactorily demonstrate incremental progress, the full Board may revoke the Program's approval.
