SUBJECT	Reconsideration of Provisional Approval, Request to Admit Students
PROGRAM	Integrity College of Health Vocational Nursing Program (Program) (Program Director: Alice Sorrell-Thompson, Pasadena, Los Angeles, Private)

Please note: The NECs make recommendations. The recommendations are forwarded to the Executive Officer Review, the Education and Practice Committee or the full Board for action.

PROGRAM REQUEST:

Continued Program Approval.

Admit a full-time class of 20 students to commence on June 6, 2023, with a graduation date of October 21, 2024.

BACKGROUND:

On November 21, 2018, the Program was placed on provisional approval for a two-year period, due to non-compliance with Article 5 of the California Code of Regulations, Title 16. The Program pass rates were compliant at 74 percent, two percentage points below the state annual average pass rate.

On November 23, 2019, the Board denied the Program’s request for a new class due to the Bureau of Private Post-Secondary Education’s (BPPE) having denied approval for the Integrity College of Health Vocational Nursing Program. The Board was informed that Legacy Education L.L.C. had developed a contract with Integrity College of Health to assist them with the financial issues which had led to the BPPE denial of approval. Integrity College of Health indicated that it planned to submit an appeal of BPPE’s denial of approval.

On February 18, 2020, the BPPE approved Integrity College of Health until February 28, 2022.

On October 27, 2020, the Executive Officer approved the Program's request for a major curriculum revision to include both the full-time and part-time programs. This approval was subsequently ratified by the Board. The curriculum contains 1679 total program hours which includes 724 theory and 955 clinical hours.

On February 9, 2021, the Board extended the Program's provisional approval until November 2022. Additionally, the Board approved the Program's request to start a full-time class on May 4, 2021.

On May 3, 2021, the Program delayed the start date for the class approved to start on May 4, 2021, to June 29, 2021, since their new curriculum had not yet been approved by BPPE.

On May 20, 2021, the BPPE approved the Program's new curriculum.

On September 10, 2022, the Program Director submitted a self-study regarding steps to increase the Program's pass rates and an analysis of student progress, including grades, remediation and tutoring for the first class of students that utilized the new curriculum. The Program Director has implemented additional remediation and tutoring.

On November 8, 2022, the Board extended the Program's provisional approval for a six-month period to allow current students, who are the first class of students receiving the new curriculum, to take the NCLEX-PN® licensure examination.

From January 2019 through December 2022, the Program's average annual pass rate consistently dropped from a 67 percent pass rate to a zero percent pass rate.

On February 17, 2023, the Program Director submitted continuing approval documents for review. A site visit was conducted on February 22, 2023. The Program was reviewed to determine compliance with Article 5 of California Code of Regulations, Title 16. One violation regarding the Program's pass rate remains uncorrected.

On February 22, 2023, due to unexpected bad weather, a planned program inspection was completed using a combination of virtual and in-person program inspection methods. No additional violations were identified.

On March 1, 2023, the Program submitted the continued approval fee payment of \$5000. The check cleared on March 10, 2023.

On April 22, 2023, the last class of admitted students graduated and are eligible to take the NCLEX-PN® licensure examination.

STAFF ANALYSIS:

The NEC reviewed and analyzed the documents provided by the Program Director to verify adequate resources including clinical facilities and classrooms to accommodate the students' learning needs and ability to meet the Program's approved objectives.

Analysis of current student grades, remediation documentation, and attendance records identified active initiation of the Program Director's, September 10, 2022, submitted plan to increase pass rates.

The Program's current annual average pass rate is 71 percent, one percentage point below the state. Out of the nine students who graduated in June 2022, seven graduates took the NCLEX-PN® licensure examination and five passed the on the first attempt.

The last class of admitted students graduated on April 22, 2023. This is the second class of students who received the new curriculum. Program pass rates for the November 2023 Board Meeting will contain students from the June 2022 class and April 2023 class who received theory content delivered from the new curriculum. The NEC will evaluate the program's pass rates for both classes and report to Board members at the November 2023 Board meeting.

STAFF RECOMMENDATIONS:

1. Approve the Program for a four-year period to commence on November 2, 2022.
2. Maintain the Program's provisional approval status for a six month-period until November 21, 2023 and issue a certificate accordingly.
3. Place the Program on the Board's November 2023 meeting agenda for reconsideration of approval.
4. Approve the Program Director's request to admit a full-time class of 20 students to commence on June 6, 2023, with a graduation date of October 21, 2024.
5. Require the Program to comply with all requirements listed below.

PROGRAM REQUIREMENTS

1. Require the Program Director to submit a comprehensive analysis report in four-months, with a submission date no later than September 1, 2023. The report must include a comprehensive analysis of the Program, timeline for implementation, and the effect of employed interventions. The following elements must be addressed in the analysis.
 - a. Terminal Objectives

- b. Evaluation of Current Curriculum including:
 - 1- Instructional Plan
 - 2- Daily Lesson Plans for each term
 - c. Student Policies including:
 - 1- Admission Criteria
 - 2- Screening and Selection Criteria
 - 3- Attendance Policy
 - 4- Remediation Policy
 - 5- Evaluation Methodology for Student Progress including evaluation of clinical practice
 - 6- Credit Granting Policy
 - d. Evaluations of approved clinical facilities which determine adequacy in number and variety of patients to accommodate current and projected student enrollment.
 - e. Faculty Meeting Methodology
 - f. Documentation of resources, including faculty and facilities, for all terms for all current cohorts.
2. Admit no additional classes without prior approval by the Board.
3. Require the Program, when requesting approval to admit students, to:
- a. Submit all documentation in final form, using the forms provided by the NEC, no later than the fifteenth day of the second month preceding the month of the Board meeting.
 - b. Provide documentation that adequate resources, i.e., faculty and facilities, are available to support each admitted class of students.
 - c. Ensure that the Program maintains an average annual pass rate that is compliant with Section 2530(l) of the California Code of Regulations, Title 16.
4. Continue to provide no less than one instructor for every ten students in clinical experiences. Section 2534(d) of the California Code of Regulations, Title 16, states: "For supervision of clinical experience, there shall be a maximum of 15 students for each instructor." Recommendation of one instructor for every ten students in clinical experiences will enable more focused instruction and enhanced learning to closely monitor and evaluate the clinical performance of students.
5. Notify the NEC in the event a current class is displaced from clinical sites.
6. Continue the Program's requirement to comply with all approval standards in Article 4 of the Vocational Nursing Practice Act, commencing at the California Business and Professions Code Section 2880, and Article 5 of the California Code of Regulations, Title 16.

Continuing Approval Process

In accordance with Section 2883 of the Vocational Nursing Practice Act, it is the Board's duty, through an official representative, to inspect or review all schools of vocational nursing in California. Written reports of the representatives' visit, or inspection, shall be made to the Board. Such inspections determine Program compliance with Article 5 of the California Code of Regulations, Title 16.

On February 22, 2023, the Integrity College of Health Vocational Nursing Program was reviewed to determine compliance with Article 5 of the California Code of Regulations, Title 16. The findings are seen within the table below. One violation was identified.

RELEVANT PROGRAM ELEMENTS

Enrollment

California Code of Regulations, Title 16, Section 2530(k) states:

“The program shall have prior Board approval to increase the number of students per class and/or increase the frequency of admission of classes. Criteria to evaluate a school's request to increase the number of students per class and/or increase the frequency of class admissions include but are not limited to: (1) Sufficient program resources as specified in Section 2530(a). (2) Adequacy of clinical experience as specified in Section 2534. (3) Licensure examination pass rates as specified in Section 2530(l)”.

The Program is approved for a 52-week full-time class and a 68-week part-time class. Approval by the Board is required prior to the admission of additional students.

The following table represents current and projected student enrollment based on current and proposed class starts and completion dates. The table indicates a maximum enrollment of 20 students for the period June 2023 through October 2024.

Licensing Examination Statistics

California Code of Regulations, Title 16, Section 2530(l) states:

“The program shall maintain a yearly average minimum pass rate on the licensure examination that does not fall below 10 percentage points of the state average pass rate for first time candidates of approved vocational nursing schools for the same period.”

The following statistics, furnished by Pearson Vue and published by the National Council of State Boards of Nursing as “Jurisdictional Summary of All First-Time Candidates Educated in Member Board Jurisdiction,” for the period January 2021 through March 2023, specify the pass percentage rate for graduates of the Program on the National Council Licensure Examination for Practical/Vocational Nurses (NCLEX-PN®) and the variance from the state average annual pass rates.

Jan – Mar 2023	6	5	83%	73%	71%	72%	-1

*The Annual Pass Rate changes every quarter. It is calculated by dividing the number of candidates who passed during the current and previous three quarters by the number of candidates who tested during the same period. If no data is available for the relevant period, the statistic is carried over from the last quarter for which data is available.

Based on the most current data available (January – March 2023), the Program’s average annual pass rate is 71 percent. The California average annual pass rate for graduates from approved vocational nursing programs who took the NCLEX-PN® for the first time during the same period is 72 percent. The average annual pass rate for the Program is one percentage points below the state average annual pass rate.

Faculty and Facilities

California Code of Regulations, Title 16, Section 2534(d) states:

“For supervision of clinical experience, there shall be a maximum of 15 students for each instructor.”

The current number of approved faculty totals seven, including the Program Director. The Program Director has 50 percent administrative duties and 50 percent teaching responsibilities. Of the total faculty, six are designated to teach clinical. Based upon a maximum proposed enrollment of 20 students, two instructors are required for clinical supervision. The utilization of faculty at clinical facilities is such that clinical instruction is covered adequately.

California Code of Regulations, Title 16, Section 2534(b) states:

“Schools shall have clinical facilities adequate as to number, type, and variety of patients treated, to provide clinical experience for all students in the areas specified by Section 2533. There must be available for student assignment, an adequate daily census of patients to afford a variety of clinical experiences consistent with competency-based objectives and theory being taught.”

Submitted documentation indicates the Program has sufficient clinical facilities to afford the number, type and variety of patients that will provide clinical experience consistent with Board-approved competency-based objectives and theory being taught for current and proposed student enrollment.

Program Inspection

Due to the weather, a hybrid Program inspection was conducted on February 22, 2023. The visit consisted of a Zoom online meeting with the Program Director discussing the students, pass rates, remediation, student attendance and make-up opportunities. The most recent graduates and current student files, which had been obtained by the Dean of Nursing of all Legacy Education L.L.C. programs, were evaluated in-person at the High Desert, Lancaster, Campus. No violations were identified during the evaluation of the documents submitted by the Program Director on February 17, 2023, or the Program inspection and student files examination on February 22, 2023.

Violation

California Code of Regulations, Title 16, Section 2530(l) states:

The program shall maintain a yearly average minimum pass rate on the licensure examination that does not fall below 10 percentage points of the state average pass rate for first time candidates of approved vocational nursing schools for the same period.

Violation #1: The Program’s average annual pass rate has been noncompliant for the last 16 quarters (January 2019 through December 2022).

Status: The violation is not corrected.

The first Quarter of 2023 (January through March 2023), quarterly pass rate is 83 percent. The graduates that tested in Quarter 1, 2023 consist of the first class of students who received the benefits of receiving instruction with the new curriculum. The Program Director has evaluated the Program and submitted a plan to increase pass rates on September 10, 2022. Evidence of implementation of the plan was

identified in the documents submitted by the Program Director on February 17, 2022.
