Hello Pam -

I would like to follow up on the response letter I sent you on August 17. In the letter, I requested the possibility of having the consideration for provisional status moved to the February, 2012 Board meeting. As I mentioned in the letter, this request was due to the fact that we have our class #3 testing starting this week and into September. With only one class at a time, we are only able to see improvement in the pass rates about every 1 1/2 years. Since our poor pass rates are from the first 2 classes (graduated 11/08 & 2/10), if we could just see how this class #3 plays out, we are confident they will turn our numbers around and make the provisional status unnecessary. I would really appreciate your consideration of this matter - thank you so much!
