SB 1480 (Hill, Chapter 571, Statutes of 2018) Discussion and Possible Action to Amend Regulations Relating to Fees for Licensure Application, Examination, and Renewal and Approval and Renewal of Providers of Courses in Continuing Education, Intravenous Therapy and Blood Withdrawal – Ms. Yamaguchi.

- I. Discussion and possible action regarding amendment to Section 2537 of Chapter 1, Division 25 of Title 16 of the California Code of Regulations (regarding Vocational Nursing) to increase the fees for application for licensure, examination for licensure, and renewal of licensure. [\(1:24:17-1:53:25\)](#)

Motion: To increase the fees for application for licensure, examination for licensure, and renewal of licensure relating to Vocational Nurses to the full amount permitted by statute (made by Mr. Dierking and seconded by Mr. Hill).

Board Discussion: [\(1:26:28-1:50:27\)](#)

Ms. Rooks asked if the Board has not had a fee increase in five years.

Ms. Yamaguchi stated that January 1, 2019 was the last fee increase and that depending on the final motion, it could take several years before this fee increase takes effect.

Ms. Rooks asked why the maximum fee allowed is needed so soon after projections were completed just a few years ago.

Ms. Yamaguchi stated that the original projection was meant to last five years. She explained that the maximum fee increase is needed to avoid insolvency because, in 2019, the school fees were postponed, and the Office of the Attorney General (OAG) fees increased dramatically by over 30 percent. She added that there was a miscalculation in the way the department assesses the pro rata charge, and the initial fee assessment did not include the percentage of revenue that goes directly to the Department of Consumer Affairs via the pro rata charge. Ms. Yamaguchi continued that

a structural imbalance was discovered in 2018, and without the school fees, the Board could be insolvent as early as 2022. The school fees were needed, and the amount projected is substantially lower than what is needed short term. She stated that the longer-term fiscal structure of the Board depends on the applicant, licensee, and the continuing education provider fees with the numbers from the Board's Budget Unit showing that an immediate change is needed in the next couple of years. She stated that the Board needs to invest in a third-party fee structure study to examine the longer-term fiscal health and address assumptions that are unknown. She added that this is an expensive study to contract.

Ms. Rooks agreed that it would be helpful to the Board to have some actuary help and thanked Ms. Yamaguchi.

Ms. Turner asked why the Board needs a vote about a fee increase that is effective in the future, for example, in 2024. She inquired if the Board could wait until 2022, with the help of the actuary report, to assess the situation.

Ms. Yamaguchi explained that the income needs to be projected now cannot be based on whether a future Board will be asked to take this action. She added that it takes at least a year to move through the regulatory process. She concluded that if a fee increase takes effect January 1, 2023, which is the recommendation of the Budget Unit, the Board is already behind schedule.

Ms. Turner asked Ms. Yamaguchi if the Board has the authority to raise these fees to the maximum.

Ms. Yamaguchi clarified that the Board has the statutory authority and that it would be the Board's responsibility, and role, to take that action.

Mr. Swenson added that the action would be to implement the statutory authority through the development of regulations. The Board has the power at this point to authorize the increase in fees for the rulemaking process but there would have to be regulations in place to move the fee to the maximum amount allowed by statute if that is what the Board decides to do, which is the recommended action.

Ms. Turner asked whether there was already an investigation and a report to reduce expenses before deciding to increase fees. She also asked whether the duties of the Office of the Attorney General should be transferred back to the Board Members and if it might result in a significant cost reduction.

Ms. Yamaguchi further explained that the process of transferring of petition hearings to the OAG should have resulted in minimal cost savings. The increased OAG costs are a result of increased OAG fees. Additionally, over the past three and a half years, enforcement staff has made significant progress in addressing and eliminating an enormous backlog and moving cases through the system. At some point the cost may be reduced but given the payment and billing structures for both the Division of Investigations and the OAG, it is difficult to project billing in Budget Year two or Budget

Year three. The invoices currently paid are based on work that was done in 2019 and 2020. It is less than fiscally prudent to project savings or project future savings.

Ms. Turner clarified that she is referring to taking back the responsibility of the disciplinary hearings that were transferred to the OAG and transferring that work back to the Board. From the cost standpoint, the OAG's hourly rate is \$100, and a Board Member's hourly rate is about \$11 for that work versus what the OAG's Office charges by the hour. By now the Board should have an idea on average, from month to month, how much the OAG charges for the work that the Board should be doing.

Mr. Swenson explained that there are two different sets of cases. Discipline cases have traditionally been handled by the AOG and heard by administrative law judges at the Office of Administrative Hearings (OAH). The proposed decisions are written and acted upon by the Board through the balloting process. These discipline cases are the bulk of the enforcement work and the enforcement attorney fees. Petitioner hearings are an entirely separate set of cases. Those are the cases that were formerly heard during a full day of the multi-day Board meeting. They involve petitions for reinstatement or petitions for modification or early termination of probation. The change in process applied to petitioner cases and not to discipline cases. Action to return the petitioner hearings back to the Board will not result in a change to discipline cases.

Ms. Turner thanked Mr. Swenson for the clarification as she was referring to the petitioner cases. Ms. Turner asked if there was a transfer of duties to help eliminate the backlog on petitioner cases and the cost involved. Ms. Turner asked for those numbers and whether there would be an impact or reduction if those duties are returned to the Board. She stated that she believed that procedure was to be temporary to reduce the backlog and not permanent. She asked if there wouldn't be a savings if the petitioner hearings were returned to the Board.

Ms. Yamaguchi stated that returning the petitioner hearing process to the Board would increase costs because of the costs that Mr. Swenson explained. The transfer of petition hearings to the OAH was a cost and time savings effort to timely address the unacceptable backlog.

Ms. Turner acknowledged that she didn't want to spend any more time on this subject and stated that the training would be an opportunity to go into more details.

Ms. Yamaguchi thanked Ms. Turner and confirmed that the Board's Enforcement Committee will discuss this moving forward.

Board Discussion: [\(2:09:19-2:10:36\)](#), [\(2:10:46-2:11:33\)](#)

Ms. Rooks asked if there is a way to amend the motion as she feels she does not have enough information to say “yes” on the maximum fee increase. She acknowledged that there are new Board Members that don’t know the history on fees and asked if it was too late to amend the motion as Ms. Turner mentioned.

Mr. Swenson stated that the Board has voted and acted on the other items.

Ms. Rooks acknowledged that she knows it is too late for the other items, she was referring to this one item.

Mr. Swenson clarified that the other, prior items would no longer be germane to this pending item.

Board President Mountain asked if there were further comments from the Board.

Ms. Brown expressed her concerns that the Board is already in the position where it’s hindered these individuals from getting their license. She expressed that the black and brown communities have been disenfranchised tremendously and that higher fees put them further behind. She requested that her remarks be part of the meeting record.
